### GRADUATE MEMBERSHIP INFORMATION

Design-Nation is a membership network and portfolio that comprises a rich and diverse pool of highly skilled designers and makers including some of the most acclaimed and innovative designers and craftspeople in the UK.

With a national and international profile, activity programme and bespoke package of support and opportunities, Design-Nation is committed to developing creative talent at every stage of career - be it graduate, emerging or established practice.

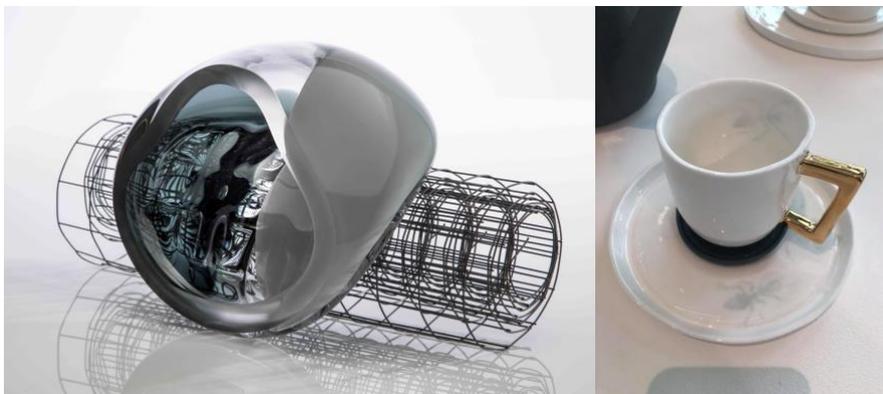

Graduate Membership provides the first step towards establishing your career as a designer-maker.

In the early days after completing a creative BA or MA, graduates can find it daunting to be faced with choices and opportunities and miss the guidance provided by their tutors. Many graduates also miss the camaraderie of their fellow students and the

opportunity to discuss the development of their work and career plans with like-minded people. At Design-Nation we can help with all of these things and more! We have a thriving network of designer makers and we have established regional cluster hubs throughout the UK. Our members are friendly, helpful and very supportive of each other.

We will provide support and opportunities that will help you to build a body of work to exhibit and sell; offer guidance on product development and the direction of your work, and encourage you to be an active member of our network.

We will also work with you to prepare your application for full Design-Nation membership, offering review sessions and application clinics. Full membership is by selection and our independent panel of craft and design industry experts meet quarterly each year to assess applications. Graduate Membership is limited to two years and we will encourage and support you to apply for full membership within this timescale.
